Projects

Fuel Theft Detection using NODEMCU, Miniproject

2022

During my 6th semester in UG, I developed a project that detects vehicle fuel levels and sends alerts to fleet operators via notifications using the Blynk IoT app.

Boxchammy Website Redesign using FIGMA, UI/UX project

06/2023

My first beginner level project of UI/UX design using Figma. The project primarily focused on redesigning a fitness club website, with the goal of honing design skills and exploring user experience improvements.

Interests

Transmission and Distributions, Webdevelopment, UI/UX Design
